

**Description:**

- 25 kHz to 200 MHz frequency range
- 80 dB dynamic reserve
- Time constants from 100  $\mu$ s to 30 ks (6, 12, 18 or 24 dB/oct rolloff update rate)
- "No Time Constant" mode (10 to 20  $\mu$ s)
- Auto-gain, -phase, -reserve and -offset
- Internal or external reference
- Two 16-bit DACs and ADCs
- GPIB and RS-232 interfaces
